Oksana Vildanova

statement art

Oksana Vildanova is a Dubai-based contemporary artist whose work explores the relationship between light, energy, and transformation through gold, texture, and monumental form.

Working with gold leaf and genuine 24K gold, she creates large-scale statement artworks that blur the boundary between painting, sculpture, and architectural object. Her compositions are built around geometric structures, spheres, and flowing lines, creating a visual language that is both contemporary and timeless.

For Vildanova, gold is more than a material. It is a symbol of light, value, and inner transformation. Each work is created by hand and designed to become a powerful focal point within exceptional interiors.

“The Weight of Light” marks the artist’s first solo exhibition in Dubai, bringing together a collection developed over the past two years.

Works by Oksana Vildanova are held in private collections in the UAE.
